

MTP/MPO slidable cassette management panel

Cables24's slidable cassette trays are designed to house MPO / MTP fanout cassettes. They allow the installation of up to four cassettes per U height (1RU), have a cable management bar on the front and accesses on the back suitable for different types of fiber with the option of installing cable glands.

For installation in a standard 19-inch rack, they have a drawer mechanism with telescopic guides that allows the interior tray to be removed and access to the internal elements.

PRODUCT FEATURES:

Up to 4 MPO cassettes per U height.
 Made of cold rolled steel.
 For 19-inch rack.
