

MTP/MPO cassette management enclosure

Cables24's cassette management enclosure is designed to house MPO / MTP fanout cassettes. They allow the installation of up to four cassettes per U height (1RU), have a cable management bar on the front and accesses on the back suitable for different types of fiber with the option of installing cable glands.

For standard 19-inch rack installation. One-piece removable cover allows for complete accessibility to the back of the enclosure and a PC material front transparent cover that protects the front connections from dust and accidental manipulations.
